PLASTRIA (B), Y. POCHET (B), C. RACZY (B), F. RIANE (B), A. SARTENAER (B), M. WIDMER (CH)

Structure of the conference

Objectives:

The conference is intended as a meeting place for researchers, users and potential users of Operations Research, Statistics, Computer Science and

related fields. It will provide managers, practitioners and researchers with a unique opportunity to exchange information on quantitative techniques for decision making.

Invited presentations:

Plenary and tutorial sessions will be addressed by international guests speakers. A session will be reserved for the presentation of the SOGESCI – BVWB prizes.

Contributed presentation:

Contributed paper sessions will be devoted to quantitative methods for decision making and applied statistics. Among others, the following topics will be covered: mathematical programming, non-linear optimization, stochastic processes, decision aid, logistics, applied statistics and computer science. This list is not exhaustive: all aspects, methods, applications and domains may be considered. Contributions dealing with real world applications and software demonstrations are especially welcome.

Software and book exhibition:

Stands are available during the conference for the exhibition of commercial software and books. Potential exhibitors are invited to contact the Organizing Committee for more details.

Call For papers

Authors are invited to submit extended abstracts in LATEX format (up to two A4 pages), preferably electronically, to raulier@fucam.ac.be. A format file is available on the Web site. The abstract should include a list of keywords and the name and e-mail address of the author(s).

Deadline for submission of abstracts: November 3, 1999.

Authors will be notified of acceptance of their presentation before December 1, 1999.

EURO MEMBER SOCIETIES CORNER

This corner is devoted to news passed on by EURO Member societies to the EURO Bulletin.

30 Minutes will be allocated to each presentation (discussion time included).

Standard overhead projector and blackboard are available. Request for special equipment should be made along with the submission of abstracts.

Proposals for software demonstration must indicate the equipment required.

Authors are encouraged to submit their paper to JORBEL, the Belgian Journal of Operations Research and are invited to submit their full paper for refereeing.
